

Virtual Baseball In-Play

It's time to bring on virtual baseball's power hitter

For passionate baseball fans throughout the US, Canada and Asia – and increasingly, the world – it's far more than just a game. Boasting close to 110 million Major League Baseball (MLB) fans attending games in the US alone, and an annual revenue of close to US\$10 billion, it's clear they can't get enough of America's favourite pastime.

And with Betradar's Virtual Baseball In-Play they can enjoy their favourite sport how they want, when they want, wherever they are – even when the season is over! Featuring unrivalled detail – from real MLB-derived data and game plays to broadcast style transitions, Virtual Baseball In-Play gives your punters a high-definition virtual experience based on unrivalled motion capture from actual professional players.

One where they can also punt on the in-play action utilising multiple game play levels and the basic bet types: Money Line, Run Line and Total Runs.

PRODUCT HIGHLIGHTS:

- 100% MLB-branded virtual baseball offering from an exclusive MLB partner
- Complete games from first pitch to final out
- Features everything that can happen in a real game
- Single solution optimised for retail, terminals, online and mobile

The image displays the Virtual Baseball In-Play interface across multiple devices. The main monitor shows a game in progress between the Boston Red Sox and New York Yankees. The scorecard indicates the Red Sox are leading 4-2 in the 7th inning. The interface includes a live game feed, player statistics, and betting options. The MLB logo and 'OFFICIAL MLB PARTNER' text are prominently displayed on the right side of the image.

ALL 30 MLB TEAMS • 60 BETTING MARKETS • FULL TEAM ROSTER • MOTION CAPTURE • PLAYER STATS + PLAYER-BASED BETTING
